

# LOADER CRANE

## PRE-OPERATIONAL INSPECTION: 07/09/23, 10:16 AM

Professional Training

Thanks for using our free lorry crane App. We hope it helps you meet the HSE's requirements. Please note that this App isn't centrally based and needs to be downloaded by each individual lorry crane operator. After each check, the App generates a report like this one, which can be sent to any email address entered by the operator as a PDF file. We also offer a multi-user App and system, which you can learn more about by contacting us. This system includes an admin portal for report management, and both the mobile App and portal can be customised with your company logo and specific questions. Check out our website, [www.lorryloader.co.uk](http://www.lorryloader.co.uk), for more information.

Operators Name:	Loader Type: Pluto 1600 super lifter
Vehicle Reg: MIKEY 1	Location: A car park
